*Sportsman's Magazine,* Vol. II, No. 11.

*Suggestive Therapeutics.* Vol. I, No. 5.

In the October number of the *American Geologist*, the leading article is by our Secretary, Mr. William L. Dawson; being a geological discussion of "Glacial Phenomena in Okanogan County, Washington." It will be remembered that Mr. Dawson has also published a "List of the Birds of Okanogan County, Washington," in the *Auk*, April, 1897. The whole scientific work was done during a residence of about fourteen months, in addition to the arduous duties of a pastorate in Chelan and the surrounding region. It is an admirable illustration of what can be done in any new field if the heart and will are in the work.
